

# Press Release

## Fleet Safety Council Educational Conference returns to webinar format for 2021

**(ETOBICOKE)** —*The Fleet Safety Council (FSC) Conference Committee would like to share the following update:*

While it was hoped that the 2021 Fleet Safety Educational Conference could once again take place in person, the planning committee has decided, for sake of health and safety, the conference will continue to be presented in an online webinar format for 2021. The 2020 conference was held in a virtual format and saw a record-breaking crowd of more than 200 attendees.

While the conference is still months away, the conference planning committee felt that with the current situation in Ontario and around the world, with regard to COVID-19, it was in the best interest of our delegates, our communities, and everyone's health to maintain an online format again in 2021. The conference will take place on Friday October 1<sup>st</sup>, 2021. Please be sure to save the date and watch for additional details in the coming weeks.

Thank you for your patience and stay safe,

The Fleet Safety Council Annual Conference Committee

### **About the Fleet Safety Council**

The Fleet Safety Council is an association of driver trainers and safety professionals working to promote safety within the transportation, transport, bus, and coach industries. The council encourages the improvement of driver behavior through increased awareness and training.

Working with government agencies and private organizations, the council strives for a uniform system of safety requirements for drivers in Ontario. Visit [www.fleetsafetycouncil.com](http://www.fleetsafetycouncil.com) for more information.
