

October Conference nearly sold out

Don't miss your chance to see this year's Provincial Driver and Safety Professional of the year

(ETOBICOKE): The Fleet Safety Council (FSC) Conference Committee reminds those interested in attending the **34th Annual Educational Conference** to act soon before tickets are sold out in order to see this year's Provincial Driver of the year and Safety Professional of the year.

The annual event, scheduled for October 24, 2025, will be taking place at Millennium Gardens Banquet Centre in Brampton. The one-day educational sessions are preceded by the FSC's annual networking events taking place on Thursday October 23. Tickets are already more than 60 per cent sold out.

The Fleet Safety Council has once again proudly collaborated with TruckRight to honor outstanding individuals on a provincial level. From the pool of regional award recipients, one exceptional driver and one exemplary safety professional are chosen to receive the prestigious titles of **Provincial Driver of the Year and Provincial Safety Professional of the Year**. This partnership highlights the commitment to acknowledging the hard work and dedication of those who contribute significantly to fleet safety.

For a complete breakdown of the sessions and timing, please download the full agenda at www.fleetsafetycouncil.com. The FSC Annual Conference Committee will continue to provide updates as planning continues. Visit the Fleet Safety Council website regularly for details.

Online registration for the conference is available through Eventbrite. Click on the link below to see pricing and to register for the event:

Fleet Safety Council Mission Statement

To promote health and safety within the transportation sector through network support and sharing of information resources, allowing us to be a strong voice for industry.

About the Fleet Safety Council

The Fleet Safety Council is an association of driver trainers and safety professionals working to promote safety within the transportation, transport, bus, and coach industries. The council encourages the improvement of driver behavior through increased awareness and training.

Working with government agencies and private organizations, the council strives for a uniform system of safety requirements for drivers in Ontario.
